

MF-IDUCTOR-2.0KW-120V-US [↗](#)

MF Induction heater handheld

incl. flexible inductor (2 m) and heat protection gloves; for heating all kinds of metal parts such as small drive components, bearing housings, nuts, bolts, pipes, small surfaces

Technical information

Technical data

P	2 kW	Power
	30 – 65 kHz	MF frequency range
U	120 V	Voltage
I	10 A	Amperage
f	50 – 60 Hz	Power frequency
	401 x 132 x 71	Dimensions of iDuctor (mm)
≈m	1,4 kg	Weight

Functions

+	Thermal protection
+	Error message
+	Cooling fan
+	Overload and overheating protection

Additional information

1 pc iductor	Included in delivery
1 pc flexible inductor (2-mtr)	
1 pc power cord (2.5-mtr)	
1 pair heat resistant gloves (2.5-mtr)	
1 pc manual
