

MF-INDUCTOR-IN179X168 [🔗](#)

Medium frequency inductor

Inner field fixed inductor for dismantling cylindrical roller bearing inner rings

Technical information

Your current product variant

Version	Fix S	Fixed, standard
---------	-------	-----------------

Technical data

d	179 mm	Bore diameter inductor
W _i	168 mm	Clear width inductor, inside
P _{max}	22 kW	For generators with power, max. ...
P _{rec}	15 kW	Recommended power setting
ϑ _{max}	150 °C	Max. permitted heating temperature
	by thermal switch	Temperature guarded winding
≈m	19 kg	Weight

Workpiece to be heated

	FAG Z-510150.02.ZL	Suitable for bearing type
	160x179x168	Dimensions inner ring [dxFxW] (mm)
