

MF-INDUCTOR-IN114X121 [↗](#)

Medium frequency inductor

Inner-field fixed inductor for dismounting cylindrical roller bearing inner rings in axle boxes of rail vehicles

Technical information

Your current product variant

Version	Fix R	Fixed, rail vehicles
---------	-------	----------------------

Technical data

d	125 mm	Bore diameter inductor
W _i	122 mm	Clear width inductor, inside
P _{max}	22 kW	For generators with power, max. ...
P _{rec}	12 kW	Recommended power setting
ϑ _{max}	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	20 kg	Weight

Workpiece to be heated

FAG F-565632.ZL, F-565633.ZL	Suitable for bearing type
90x113,5x64+2,0+54,4	Dimensions inner ring [dxFxW] (mm)
