

**MF-INDUCTOR-IN202X168** [↗](#)

## Medium frequency inductor

Inner field fixed inductor for dismantling  
cylindrical roller bearing inner rings

## Technical information

**Your current product variant**

Version	Fix S	Fixed, standard
---------	-------	-----------------

**Technical data**

d	205 mm	Bore diameter inductor
W <sub>i</sub>	170 mm	Clear width inductor, inside
P <sub>max</sub>	22 kW	For generators with power, max. ...
P <sub>rec</sub>	20 kW	Recommended power setting
ϑ <sub>max</sub>	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	21,9 kg	Weight

**Workpiece to be heated**

180x202x168	Dimensions inner ring [dxFxW] (mm)
-------------	------------------------------------

**Additional information**

Product image exemplary. Product design subject to change.	Note
Product is manufactured to order. Request with specification of the application case to customer service.	Availability
