Drum pump

Pneumatic drum pump set

Technical information

Technical data

18 kg hobbock	Usage
Pneumatic pump	Design
RP ¼"	Connector compressed air inlet
R ¼"	Connector grease outlet
40 mm	Suction pipe diameter
495 mm	Suction pipe length
425 bar	Operating pressure (at 6 bar pneumatic supply pressure)
3 bar	Pneumatic supply pressure, min.
8 bar	Pneumatic supply pressure, max.
1:55	Pressure ratio
1.150 cm ³ /min	Delivery rate
85 dB	Sound pressure level
≈m 18,4 kg	Weight

Additional information

Pneumatic drum pump with suction pipe, grease gun, high-pressure-hose with connecting nipples, grease follower piston, dust cover	Included in delivery
