

### MF-INDUCTOR-IN308X275 [↗](#)

Medium frequency inductor

Inner field fixed inductor for dismantling cylindrical roller bearing inner rings

## Technical information

### Your current product variant

Version	Fix S	Fixed, standard
---------	-------	-----------------

### Technical data

d	310 mm	Bore diameter inductor
W <sub>i</sub>	275 mm	Clear width inductor, inside
P <sub>max</sub>	22 kW	For generators with power, max. ...
P <sub>rec</sub>	20 kW	Recommended power setting
ϑ <sub>max</sub>	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	28 kg	Weight

### Workpiece to be heated

FAG Z-527104	Suitable for bearing type
280x308x275	Dimensions inner ring [dxFxW] (mm)

### Additional information

Product image exemplary. Product design subject to change.	Note
Product is manufactured to order. Request with specification of the application case to customer service.	Availability
