

**MF-INDUCTOR-IN134X81** [↗](#)

Medium frequency inductor

Inner-field fixed inductor for dismantling cylindrical roller bearing inner rings in axle boxes of rail vehicles

Technical information

Your current product variant

Version	Fix R	Fixed, rail vehicles
---------	-------	----------------------

Technical data

d	142 mm	Bore diameter inductor
W _i	81 mm	Clear width inductor, inside
P _{max}	22 kW	For generators with power, max. ...
P _{rec}	10 kW	Recommended power setting
ϑ _{max}	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	15 kg	Weight

Workpiece to be heated

	FAG F-578004.03.AMG120- Z-A/B, F-672729	Suitable for bearing type
	120x134x80,5	Dimensions inner ring [dxFxW] (mm)
