

MF-INDUCTOR-IN222X170 [↗](#)

Medium frequency inductor

Inner field fixed inductor for dismounting cylindrical roller bearing inner rings

Technical information

Your current product variant

Version	Fix S	Fixed, standard
---------	-------	-----------------

Technical data

d	230 mm	Bore diameter inductor
W _i	170 mm	Clear width inductor, inside
P _{max}	22 kW	For generators with power, max. ...
P _{rec}	20 kW	Recommended power setting
ϑ _{max}	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	22 kg	Weight

Workpiece to be heated

FAG Z-507344.ZL	Suitable for bearing type
200x222x170	Dimensions inner ring [dxFxW] (mm)
