

**WS81144** [↗](#)

## Shaft locating washer

Axial cylindrical roller bearings 811, single direction, comprising K811, GS, WS

## Technical information

**Main Dimensions & Performance Data**

|                |          |                           |
|----------------|----------|---------------------------|
| d              | 220 mm   | Bore diameter             |
| d <sub>1</sub> | 267 mm   | Lip diameter shaft washer |
| B              | 11 mm    | Height shaft washer       |
| ≈m             | 1,562 kg | Weight                    |

**Mounting dimensions**

|                  |        |                           |
|------------------|--------|---------------------------|
| r <sub>min</sub> | 1,1 mm | Minimum chamfer dimension |
|------------------|--------|---------------------------|
