

**WS81220**

## Shaft locating washer

Axial cylindrical roller bearings 812, single direction, comprising K812, GS, WS

## Technical information

**Main Dimensions & Performance Data**

|                |         |                           |
|----------------|---------|---------------------------|
| d              | 100 mm  | Bore diameter             |
| d <sub>1</sub> | 150 mm  | Lip diameter shaft washer |
| B              | 11,5 mm | Height shaft washer       |
| ≈m             | 0,87 kg | Weight                    |

**Mounting dimensions**

|                  |        |                           |
|------------------|--------|---------------------------|
| r <sub>min</sub> | 1,1 mm | Minimum chamfer dimension |
|------------------|--------|---------------------------|
